1947 VINE SEED PRICE STRUCTURE

We give no warranty, express or implied, as to the productiveness of any seeds or bulbs we sell and we will not be in any way responsible for the crop. Our liability in all instances is limited to the purchase price of the seed.

Our 1947 Vine Seed Production Contracts have been mailed. If you haven't received yours, please WIRE COLLECT for a copy!

This year has probably been as difficult a one for us in establishing our prices as any year during the war. We have had repeated meetings with representative groups of our ranchers in an effort to satisfactorily thresh this problem out. In most instances, we have been able to hold prices to last year's levels despite increases in certain popular competitive crops such as Sugar Beets. This has been the result of a very considerable amount of work on the part of our fieldmen and is represented in our prices as outlined in our 1947 Contract Price List.

As you will note, for the most part, our prices are identically the same as our 1946 Contract Prices. There have been a few changes on several items, but they are not large in any instance.

It is our firm opinion, based on a comprehensive survey of our several production areas, that Vine Seeds in no instances this year, will be produced at a lower figure than in 1946. While we have stated above that we have held our prices to about the same level as 1947, yet it could develop due to the rather uneasy feeling of many of our ranchers, that this situation will not remain static. In other words, before we have placed adequate acreage to cover our requirements, it is conceivable we may be forced to initiate additional increases. We hope that this will not be the case, and will work strongly towards maintaining a static condition.

We offer the above as a survey of the situation as we see it and for your information in attempting to draw a picture of the future price structure. This year, as much as any war year, we hope you will be able to forecast your requirements and contract early!

Yours very truly,

LRR:AH

LAWRENCE ROBINSON & SONS

P.S. We enclose our list outlining varieties available for IMMEDIATE SHIPMENT. 1946 Crop, High Germination, excellent quality. Shipment effected same day as orders received.
